WHAT'S DIFFERENT ABOUT APOLLO?

HEAD-MOVEMENT IS COMPENSATED DURING TREATMENT WITH HANS

EXACT DOSE AT REPRODUCIBLE TARGETS DURING TREATMENT

INNOVATIVE ASSISTANCE SYSTEMS AND REPORT GENERATION ON BOARD

OUTSTANDING, CUSTOMIZABLE DESIGN

HANS – HEAD AND NECK SUPPORT

THIS TMS COIL...

Everybody that has operated TMS before has also encountered this predicament: while under stimulation the patient moves his head and the resulting treatment location changes.

HANS can help solve this: by moving the coil together with the patient's head, the stimulation site stays the same while the patient is not under as much pressure to sit still. Easy target reproducibility while allowing the patient to be more relaxed during treatment – that is HANS, innovation Made in Germany!

...FOLLOWS HEAD MOVEMENT!

apollo TREATMENT PLAN

FAST DAILY SESSIONS

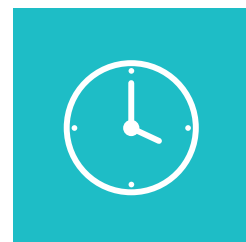

Fast 19 to 37 min in-office-treatment.

Easy implementation in the daily schedule – for the patient and the physician.

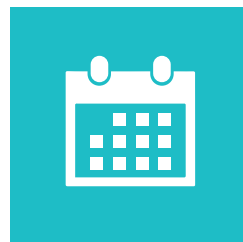

TREATMENT SCHEDULE OF APOLLO TMS THERAPY SYSTEM

5 treatments per week, for 4-6 weeks.

19 to 37 minutes
treatment duration

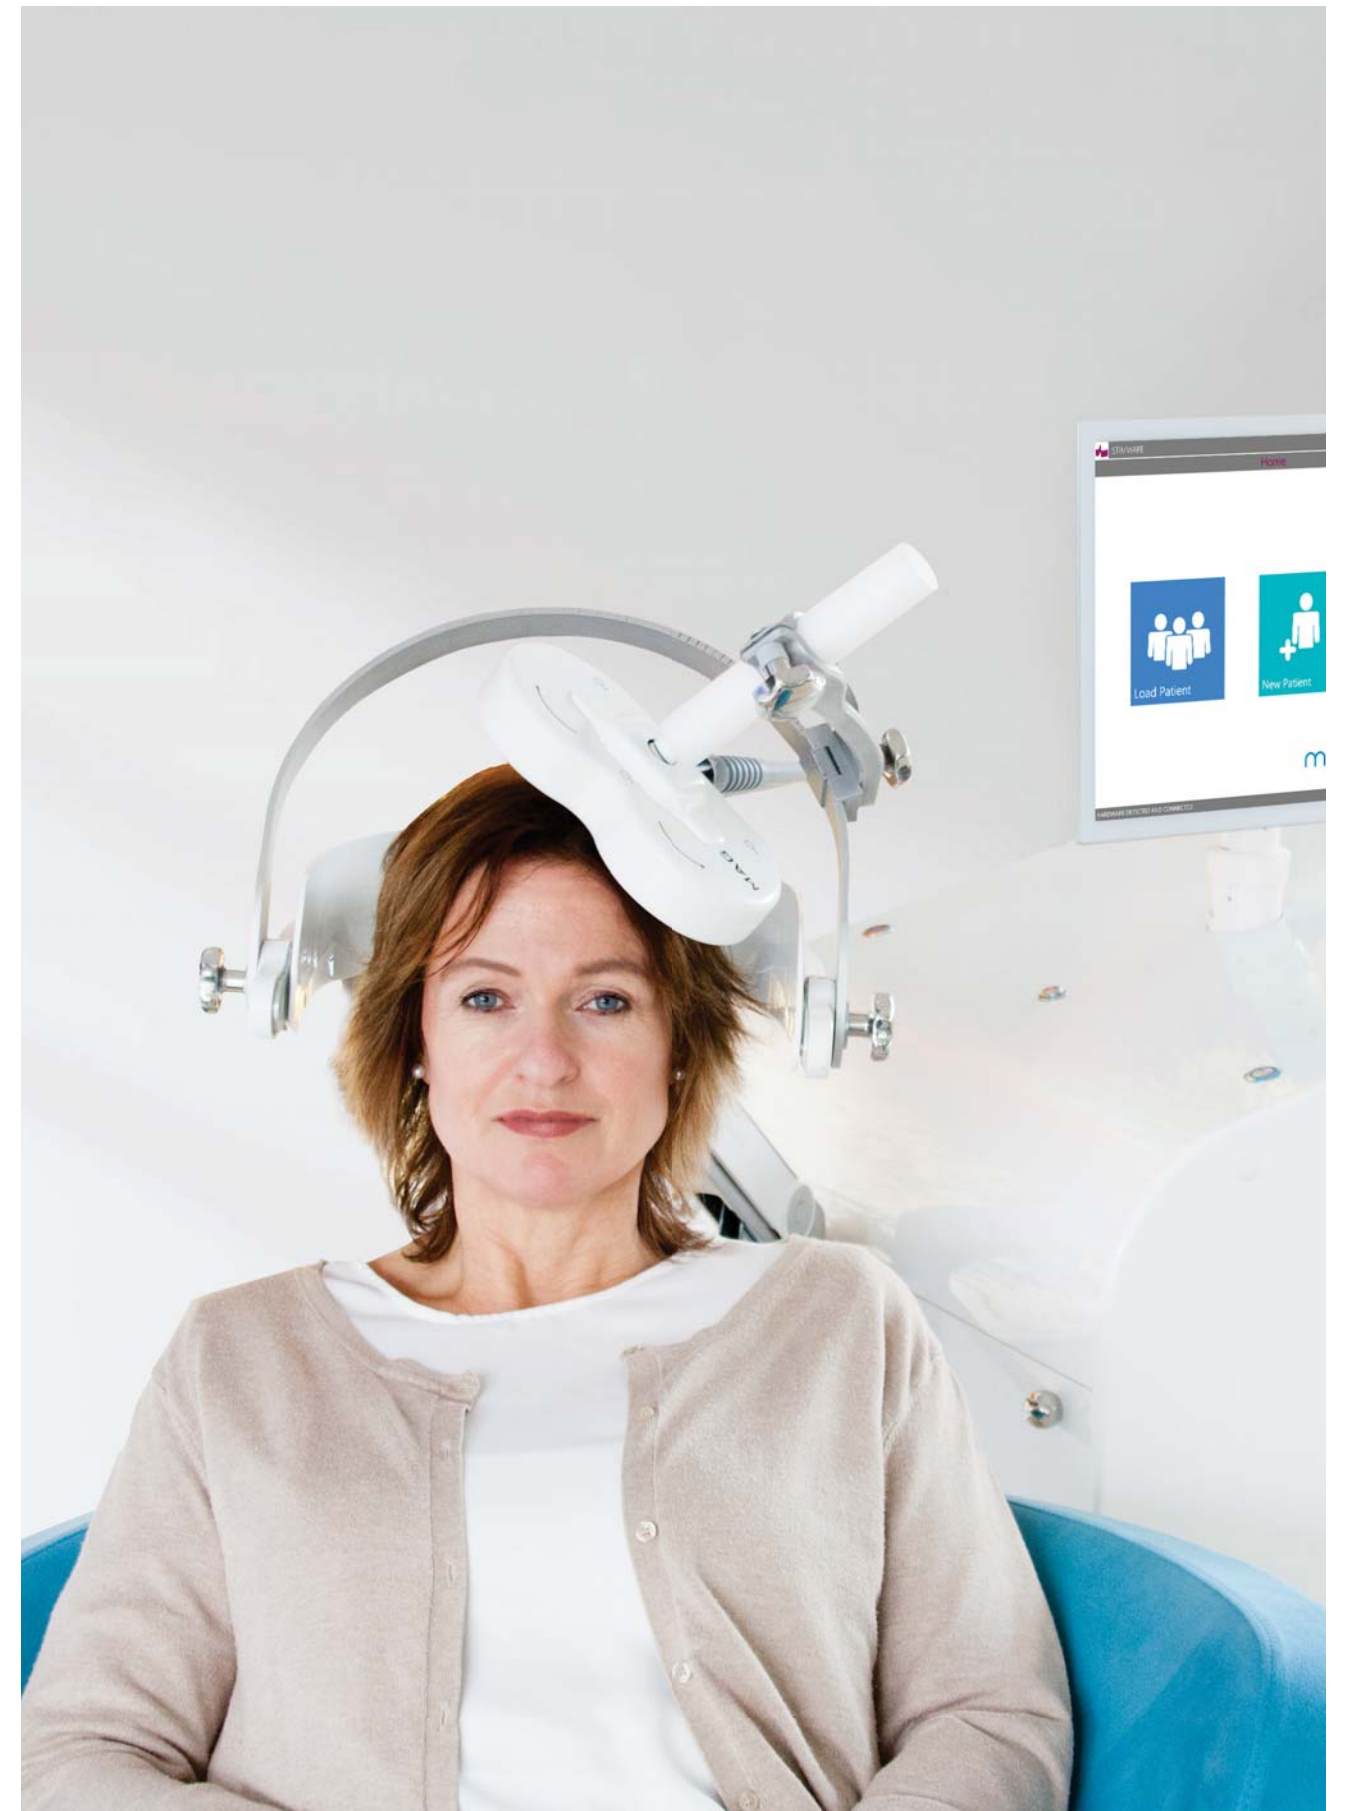

5 days per week
4-6 weeks in a row

Patient is awake
and alert during
treatment

Daily routine
activities possible
after treatment

Enlightened by a Butterfly

EXPERIENCE CONFIDENCE

The Apollo TMS Therapy System is available with an adjustable ergonomic chair, creating a pleasant and unique treatment atmosphere. This chair supports the patient's back at different angles while the patient may comfortably rest with their feet up.

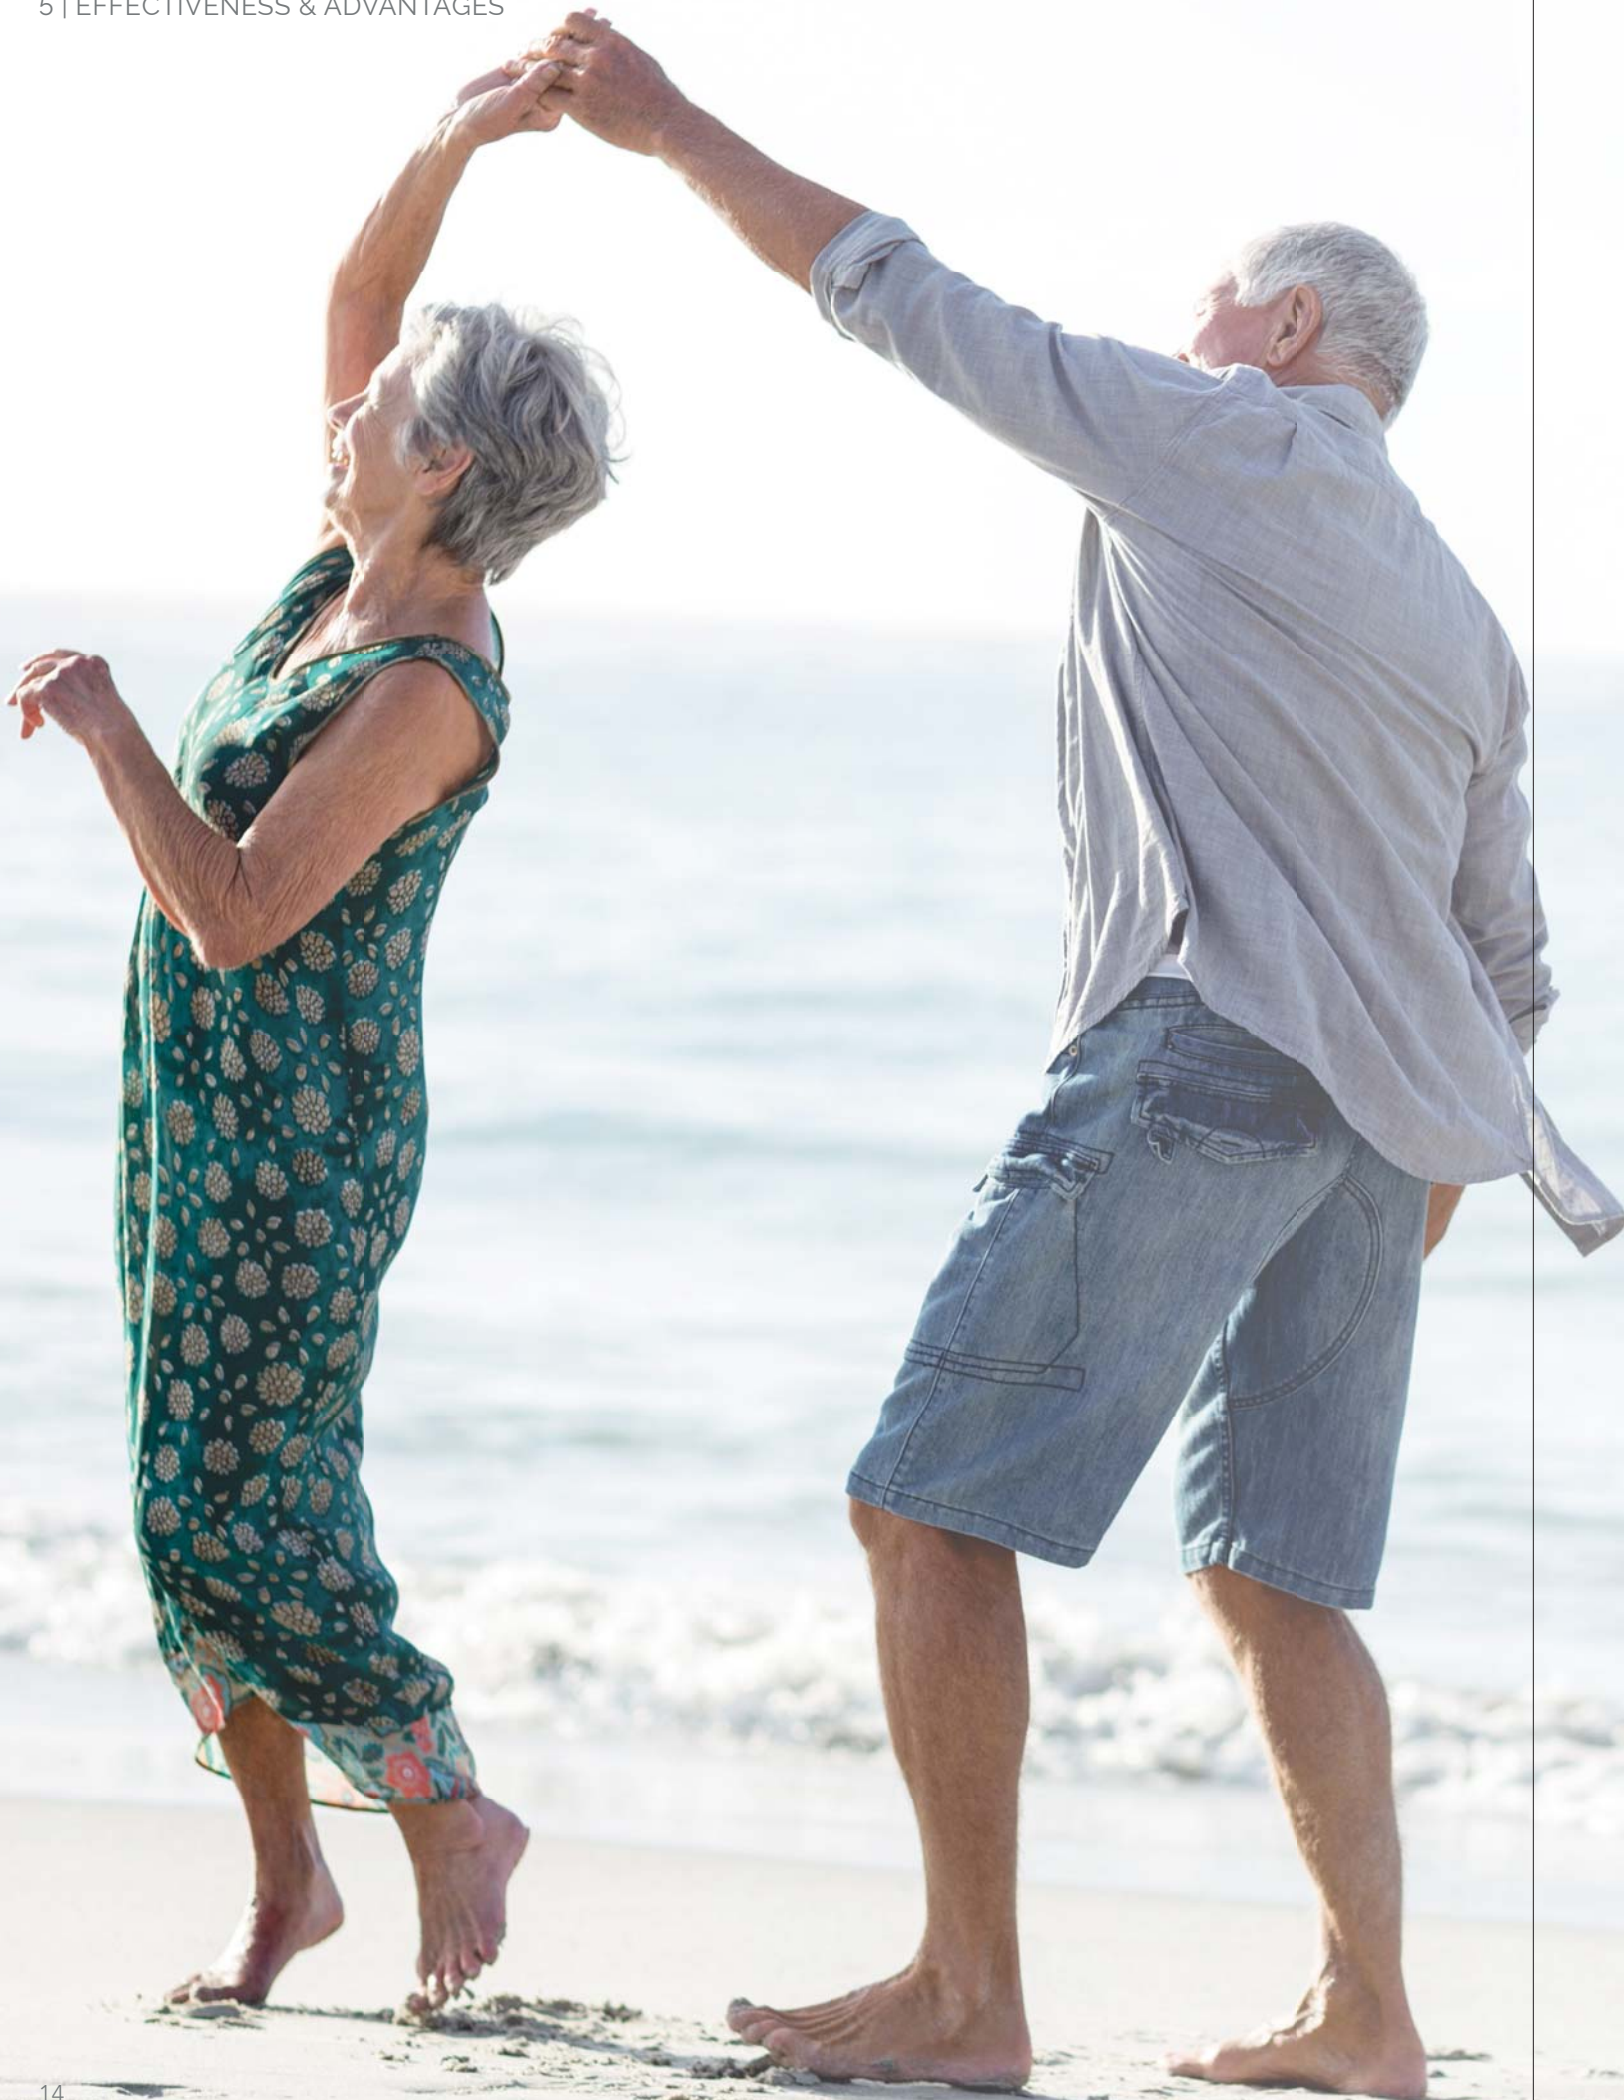

Customize your treatment environment with the different colors of the Apollo TMS Therapy System Chair. All fabrics are cleanable with standard disinfection cleaning materials.

6 COLORS, 2 FABRICS...

EFFECTIVENESS OF TMS IN THERAPY

TMS treatment has been approved by FDA since 2008 for patients with depression who have failed to achieve satisfactory improvement from one prior antidepressant medication at or above the minimal effective dose and duration in the current episode.

Controlled clinical studies¹ applying TMS on patients for major depression showed that:

- Approximately 1 out of 2 patients experienced significant improvement in depression symptoms.
- Approximately 1 out of 3 patients experienced complete symptom relief after the full TMS therapy.

ADVANTAGES OF TMS COMPARED TO OTHER TREATMENTS

- 🌈 Targeted modulation of prefrontal networks
- 🌈 Non-invasive and well-tolerated
- 🌈 No systemic side effects and safe²
- 🌈 No cognitive side effects
- 🌈 Suitable for long-term treatment

SERVICE – PART OF OUR PROMISE

We understand that servicing and supporting our customers is at least as important as the product itself. To this end we offer different service packages for you to choose from, ensuring that everything is set up and installed correctly, your team is instructed and trained thoroughly and any questions or problems are addressed and resolved swiftly. Our goal is to ensure that you can focus on what matters most – your patients!

USA Disclaimer

FDA cleared for treatment of Major Depressive Disorder

The Apollo TMS Therapy System is FDA 510(k) cleared for the treatment of Major Depressive Disorder in adult patients who have failed to achieve satisfactory improvement from prior antidepressant medication in the current episode (K180313).

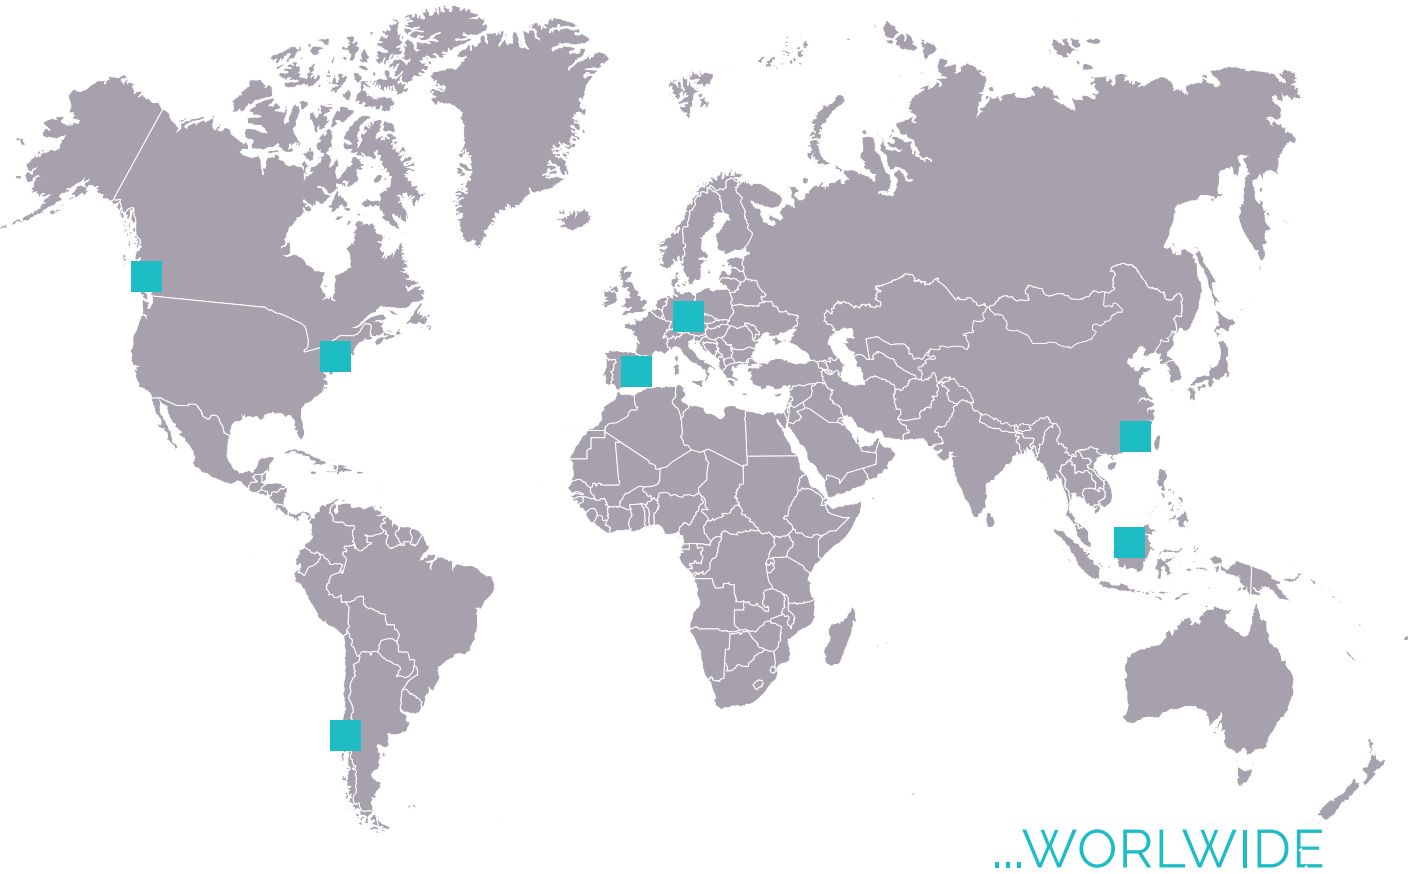

TMS-ACADEMY

MAG & More
TMS-Academy

Through our TMS-Academy platform, we offer CME-point certified TMS trainings conducted by independent experts. During our »TMS-Days«, participants learn about the theoretical background of TMS and do extensive hands-on training to receive the knowledge and tools to safely and effectively perform TMS treatments.
